Kelley,

I know this is on the fast track but both metals analysts are out today. I can take a look at this and response but would prefer one of them look at it to confirm. Joe Dorsey will be in tomorrow and we could respond by 10 if that works for you. Otherwise I look at it today and will give a response and then have Joe confirm separately tomorrow.

I think most of the comments are due to the different batches that were used.

Cindy
